The Evaluation Core can help you measure and describe your project outcomes through the design and implementation of effective program evaluation.

Not sure about your evaluation needs? Contact us to schedule a complementary consultation.

Service Examples

Evaluation planning

- Development of logic models, theory of change, and outcome measures
- Written evaluation plans for grant proposals
- Identification of program metrics

Evaluation implementation

- Development of evaluation tools, such as surveys or observational rubrics
- Management or collection of data

Analysis and results validation

- Analysis of data and synthesis of results

Dissemination

- Manuscript preparation
- Guidance on how to share results

The OHSU Evaluation Core is comprised of faculty and staff that provide services across the spectrum of evaluation-related activities. We work with individuals and programs at OHSU and with community organizations throughout Oregon.

We support project evaluation by providing leadership and guidance on database design, data analysis, and content-specific evaluation.
